# MYTHICAL MUSIC PRESENTATION & HISTORICAL TOUR

The music presentation creates an innovative, interactive musical journey using mythological narration and hand-crafted wind and string instruments.

The tour explores the history and singular architecture of the former winery.

# SCENT TABLE

Theran pre-historic era will ensure a well-rounded olfactory journey for your guests. In order to achieve that we need to incorporate carefully selected scents, and precious raw materials creating an experience that will leave a long lasting impression. Presenting an aromatic pallet of prehistoric Thera, bringing forward the scents of this civilisation. We plan to use Santorinis' floras plus aromatic ingredients traded to Santorini from other origins back in this era.
